Abstract: The McGovern Research Center collections include rare books, photographs, postcards, manuscripts, medical portraits, and a small number of medical instruments and artifacts. The book collections focus on the history of medicine, rheumatology, and public health in North America. The manuscript collections document health care institutions and physicians in Houston, Texas, and the work of rheumatologists throughout the United States. Postcards depict hospitals, spas, and physicians' homes throughout Texas. **SERVICES:** Reference service onsite, by mail, or e-mail. Photocopying available. In-house database Gazetteer of Texas Physicians. Catalog web accessible (see address above). Books are listed in OCLC. Digital Library: Seven gout manuscripts by William Stukeley (ca. 1830-1860); two anatomical works (1617 & 1728); multiple works by James P. Warbasse; several of William Osler's titles; multiple titles related to Texas medicine and psychiatry.
